(The reward of accepted pilgrimage is but paradise (indeed)  
(Saying of the Holy Prophet (peace be upon him))

In the Name of Allah, the Most Beneficent, the Most Merciful

Praise be to Allah, the Most High, and peace be upon the prophet, the leader of those who are striving in the way of Allah, the Almighty.

I would like to extend my warmest felicitation on the eve of Eid ul-Adha to all the Muslims of the world; to the oppressed, suffering but committed and brave people of Afghanistan, especially my heartfelt felicitation goes to all the Mujahideen on this auspicious day. May Allah, the Almighty bless the Islamic Ummah and particularly, the families of the prisoners and martyrs to pass this auspicious day with patience, happiness and pride. May Allah, the Almighty bestow on our wealthy men and women the willpower to share their amenities with all the miserable people, particularly with the families, widows and orphans of the heroic martyrs, the oppressed prisoners and the holy Mujahideen. They should take care of shelter, cloth and food of these families and have a conduct of compassion with them. Moreover, may Allah, the Almighty, accept the pilgrimage of all the pilgrims and may He, the Almighty award their prayers and supplications in favor of the oppressed Ummah full acceptance.

This day of Eid ul-Adha is a reminiscent of a sacrifice of the Islamic Ummah in the way of Allah, the Most High. The history of this day gives lesson of sacrifice to every Muslim to seek pleasure of his/her Lord. A true believer gains success, honor and freedom of

both the worlds when he is prepared to lay down his life and wealth in the way of Allah, the Almighty.

The spirit of freedom of Islam emanates from the sacrifices of the believers. No enemy can withstand the onslaught of the sacrificing believers. It is the result of these sacrifices that today, despite scarcity of materials and empty-handedness, we have compelled the most powerful enemy to flee. I would like to remind the illegal invaders who have invaded our defenseless and oppressed people that it is a golden opportunity for you at present to hammer out an exit strategy for your forces. Put an end to the genocide of the people.

The more you destroy our people's houses, the more you martyr our people, the more you will face the wrathful reaction of our Mujahideen. This is why you are forced to hide the dead bodies of your soldiers out of the knowledge of your nation. You will not be able to convince your people about the indecisive, ambiguous war, the result of which is unclear.

Repeatedly, you do admit that gone is the time when the killing of foreign troops and destruction of their military hardware was a hard task (for the Mujahideen). You acknowledge that the cutting-edge technology had had no bearing on the consequence of the war. You should understand, that no puppet regime will ever stand up to the current resistance movement. Nor you will justify the occupation of the Islamic countries under the so-called slogan of rehabilitation any more.

The vista of hope that you are fostering is illusory and contradictory. Increase in troops means deployment of more troops, which will end up flaring up battles everywhere. Thus, the current armed clashes which now number into tens, will spiral up to hundred of armed clashes. Your current casualties of hundreds will jack up to thousand casualties of dead and injured simultaneously.

The rationale (of troops augmentation) will not seem cogent even to your own people, and because of your blind bombardments which usually result in the murder of defenseless Muslims, men, women and children. you will not escape the wrath of the Islamic Ummah. On the other hand, your superficial willingness for peace will seem absurd in view of the continuation of strife by the invading planes and increase in the number of foreign troops in the country. In the first instance, these advocates of peace should put an end to the occupation.

They have imposed the war on the Afghan Mujahid nation. Futile is claims for peace in any human society while still under the

## MILNEWS.ca - Military News for Canadians

shade of the gun. Do not ever presume that in the presence of the occupation forces, the followers of the path of Islamic Resistance will ever abandon their legitimate struggle merely on your empty and farcical pledges, material privileges and personal immunity. Similarly, the invading forces wrongly contemplate that they would be able to play the Afghans against the Mujahideen under the so-called label of tribal militias.

No Afghan will lower himself to such an irrational and insensitive position to fight against his own brothers for the interests of the invaders and lose his life and faith for the obtainment of pleasure of the invaders. The Afghans always lay down their lives for their faith. They have carried out their fight on the bases of their conviction (throughout the history) Nations persist in their fight of conviction against the enemies of Islam and the home land. Wars of this caliber are not waged just against the freedom-loving Mujahideen.

I call on the peace-loving people of the world to use their influence in the way of liberation of all the occupied countries including Afghanistan; they should strive to enable the occupied nations to have the same prosperities, as they wish for themselves. Today the world 's economy is facing a growing meltdown, because of the belligerent and expansionist policies of USA. This has left its negative impact on the whole globe. Therefore, it is the collective duty of all to derail this war-mongering trend.

I urge my brave and Muslim people to:

1. Stay steadfast in support of Mujahideen vis-à-vis the invaders.
2. Your support for Mujahideen is a religious obligation. Take every care to avoid being ensnared by the futile propaganda of the enemy and their lackeys.
3. Do not toil yourself in the way of the deceptive election. In fact, (under the ostentatious name of election) selection is carried out in Washington. The figureheads are, de facto, not the outcome of your votes but rather they are selected on the discretion of those sitting in Washington. Do not expect these figureheads powers-that-be will come to your remedy, though you may be bombed by America myriad of times. The rulers can go but to the extent of rhetoric's and assertions only. The power of action and decision lies in Washington. So with a view to this, it will be futile to expect them to do what they could not.
4. No difference between Shah Shuja, Babrak Karmal and the rulers of the present Kabul Administration. All are equal when

to comes to national and Islamic betrays and treason. This is clears even to you.

Now when the enemy is on the verge of defeat, I would like to remind you that (throughout the history) enemies have deprived the Afghans of sustaining the pride of victory following the military defeat of the enemy because the enemies do not leave them to build up a strong foundation and a sole leadership. This exactly happened after the defeat of the Russians. The flames of difference and atrocities engulfed every house of the Afghans. The prolongation of the sufferings of our people and their perdition originate from this factor of not having a sole and strong leadership after the defeat of the Russians. Of course, concoction of collusions and conspiracies added to our failure. Today once again, the enemy is trying to divide the Afghans and entangle them in internal strife under various names after the defeat. Efforts now underway by the invaders and a number of other countries are an open secret which is a threat to the integration of our integrated country.

They are busy in overt and covert efforts for disintegration of our country and have devolved this job on some of their hirelings to rake up lingual and geographical differences among the people and confront Afghanistan with a dismal future. Every Afghan must remain wise and cautious so that all the affairs are conducted in a direction of Islamic goodwill and reasonability following the escape of the enemy. A number of hired persons and circles intentionally ascribe the Islamic movement to ethnicity and geographical inclinations. Others, are involved in self-same arguments out of their ignorance and misunderstanding. Our religion enjoins on us to avoid from indulging in any kind of activity involving prejudices based on ethnicity. The only bond, which binds us, is the bond of Islam. Every Muslim is a brother and a friend to one another. We consider every Muslim as a reverend soul. Islam views Muslim as a single community. A saying of the Holy prophet Muhammad (Peace be upon him) related in Abu Dawood, instructs as follows: "Whoever fights for the prejudices of tribe and tribalism, is not one of us."

The Afghans should take precaution to avoid being entrapped by the beguiling conspiracies of the enemy in order to ensure integrity of the land and exaltedness of their religion. We urge all Afghans, particularly those brothers who have taken part in the resistance against the Russians, to come forward and let us fuse into one. Let's join hands. Any post that you now hold and what may have you done but still you are the believers and have passed through bitter experiences. Let us now stand shoulder to shoulder with honesty and frame an independent and Islamic policy in order to stamp out the anarchy.

## MILNEWS.ca - Military News for Canadians

If we unite, we are a strong nation. No power in the world can stand in face of us. We can determine our direction ourselves. All analysts and observers are of the opinion that if the Afghans had not joined hands with the alliance of the crusaders, the non-believers would not have gained dominance over Afghanistan. Any way, this miserable nation of ours deserves mercy and consolation. The military, cultural, and economic onslaught of the foreign crueller is beyond the tolerance of all the Afghans. Our embrace is open for all those Afghans who are fostering such noble feelings in their hearts.

I call on the Islamic world particularly on the noble people of the Arabic world to support the real and honest Mujahideen of Iraq, Palestine. Help them with your wealth and soul and fulfill your Islamic responsibility. This responsibility must be fulfilled in this critical phase of the Islamic history, particularly, the scholars and men of knowledge, should provide a guidance role to the Mujahideen. I believe if the ranks of the holy Jihad in these lands become united as they are in Afghanistan, the occupied nations will gain liberation and will have an Islamic system.

The neighboring countries of Afghanistan and all regional countries should understand that the expansionist and arrogant policies of USA and its influence in the region is not in the interest of any one but it is a threat and danger to the region. Therefore, we must confront it jointly. The USA will not be satisfied until and unless it eradicates all your military, academic and economic power. This is now a fact substantiated by experience. No need to prove it by arguments.

To end, I extend my felicitation to the pious Mujahideen on the eve of Eid ul-Adha and pray for their steadfastness and draw their attention to some necessary points:

1. Frame all your conducts, attitudes and intentions in the bounds of the Islamic Sharia.
2. Observe caution, prudence and wisdom in your operations.
3. Do not take any step, whatsoever it may be, pertaining any Afghan unless and until you have a sound proof and evidence.
4. Not resort to spontaneous, emotional and carefree actions while administering punishment to any Afghan.
5. Maintain strong bonds with your people.
6. Protect the life and property of your people.
7. Be cautious about the conspiracies of the enemy.

## MILNEWS.ca - Military News for Canadians

8. Clamp down on all money mongering and brutal gunmen who plunder national business men and wealthy people at gun point and are involved in the kidnapping of people for ransom. Should you have power, administer to them Islamic punishment. Protection of people's life and property is one of the major goals of Jihad.

To conclude my message, I condemn the brutal and merciless murder of tens of oppressed prisoners in Pullie-Charkhi Prison in the auspicious days of Eid in the month of Zil-Hajja in 1429, the lunar year. This bestial and cowardly act of the enemy speaks of their extreme weakness and moribund state. I pay my tribute to the soul of these holy and oppressed martyrs. May Allah, the Owner of Glory and Honour bestow on them the highest rewards and blessings. The sacred blood of these martyrs does signify the establishment of the Islamic system and the eradication of the crueller.

The Mujahideen of the Islamic Emirate will not show slackness in giving Islamic punishment to the murderers of these martyred POWs who were killed while being tied up.

Thus the pharaoh of today will taste the chastisement of their deeds in this world and in the world to come. **That is an easy task for Allah to accomplish.**

Forward to the complete victory of the Holy Jihad.

Prayer for total defeat and fiasco of the enemy.

Mullah Mohammad Omar Mujahid

Servant of Islam, Leader of the Believers.
