The Americans are determined to form tribal militias via dispensation of dollars and play the tribal people against the Mujahideen The most obvious and fresh experience about the formation of militias in Afghanistan is the despicable experience of the Russians, which is hated and deplored by all the Afghan nation. When the Russian were about to flee from Afghanistan, they turned to forming militias under the name of Gailam Jan Militia , Jabbar Militia and other militias built on the basis of ethnicity and region. Weekly Comment! Americans' Last Ditch Attempt

Americans' Last Ditch Attempt

The US and its alliance of the warlords have not been able to build a peaceful, prosperous Afghanistan after the passage of seven years and despite their using of various tactics of terrorism and occupation. Nor they have been able to establish a central, successful and representative government, nor an administration based on their vision and

pre-conceived formulas. This is because they wanted to impose on the Afghans a surrogate regime nurtured in the nursery of the West, being headed by a quasi-Afghan faces. Thus, the US wanted to keep the Afghan patriotic nation chained in its colonial tentacles. However, our history has it that stooges never flourish in this land of free people. They are immediately regurgitated out and dispelled. Hence we are now witness to this hard fact that the US and its colonial ambitions are nearing to the verge of perdition thanks to the blessing of Allah, the unwavering resistance and sacred struggle of the Afghan people. Their economic ascendancy is tapering down; their global dominance is falling smithereens.

They are now resorting to their final bobby-trap which, experience has showed, have no prospect in this land.

The Americans are determined to form tribal militias via dispensation of dollars and play the tribal people against the Mujahideen. During his visit to Afghanistan, US Defense Secretary, Rober Gates, indicated that they were pondering to hammer out a new strategy for Afghanistan and the region. , Because the tribal militias strategy has proved its effectiveness in Iraq. The US Defense Secretary and the masterminds behind the formation of the tribal militias should know that the tribal militias strategy was never a successful one in Iraq either. The lull in fighting in Iraq allegedly ascribed to the formation of Al-sahwa militia does not mean that indignation against and opposition to the presence of the Americans stationed there, have mitigated but only fighting among armed ethnic factions have spiraled down.

Last week, the Pentagon acknowledged that in every 24 hours, 10-15 suicide attacks are carried out against US forces, either killing or injuring ten American troops on the average. On the other hand, the Americans should not look at Afghanistan in the spectacle of Iraq. Here sectarian differences do not exist among the people in the tribal areas as it is the case in Iraq. Should that had been the case, the Americans might have taken advantage of that and tipped the people against Mujahideen. Now we are beholding that the people of the tribal areas are bonded and infatuated by the spirit of Jihad and patriotism, making it almost impossible for the Americans to take a breath of relief as a result of their resorting to the rallying of people to weaken Mujahideen .

The most obvious and fresh experience about the formation of militias in Afghanistan is the despicable experience of the Russians, which is hated and deplored by all the Afghan nation. When the Russian were about to flee from Afghanistan, they turned to forming militias under the name of Gailam Jan Militia, Jabbar Militia and other militias built on the basis of ethnicity and region.

Americans have to analyze the role, reputation and history of these unscrupulous militias and then take up the strategy of militia formation.

Americans last attempt Almentnp

U.S. and Coalition combat did not appreciate during the past seven with all the brutality and abuse and types of tactics to make Afghanistan safe, self-Moktefap, and the successful management and inclusive gathering centralized by the Afghans and Khartthm Formulhm; because they wanted to install for a client and stick the number of Almtovgnin Almtrbin in the corridors of the West and Barath The Afghan people, who were Ihon bring home the Afghan jealous under their control and domination for a long time.

Since the level of Afghanistan does not bear blankets Abidah and the client on the head quickly and Istafgrha Iqiiha, Now, we believe that God thanks and then a strong resistance and fight al-Tahir of the Afghan people near and pro-American ideas to the brink of demise, and the towers rocked its economy, and started taking off the roots of its sovereignty and the World , Here Today, America is out to those Alochaabak eroded recent can never have a positive impact in this region and this country does not have a future in practice.

America Cmrt now on the arms for a militia national and local armed groups in Afghanistan and tribal areas strongly hold the dollar and the Mujahideen groups in the fighting; Vkdohar Defense Secretary Gates in his America in the last

weeks before his departure to Afghanistan, to the point that they thought the new military strategy for Afghanistan and the region, They have a thesis militias and ethnic groups, by saying that militias national strategy proved successful by them.

Must be aware of the Minister of Defense of America and National Tarahawwa militia in Afghanistan and the region well this talk; that this strategic have not been effective and successful in Iraq, never, and the relative calm with the repair of the militia known as Basahot there is no sense that the resistance and hatred against foreign occupation has become Tdiilp Ootrajat, but played down fighting The rivalry between ethnic groups, gangs warring nation, as by the Pentagon in a statement last week that he still received between ten to fifteen a deadly attack on foreign forces in Iraq in 24 hours, ten sites were killed Jrihz

The other hand, does not consider Americans to the war in Iraq and the current climate into one with Afghanistan, because the grace of God does not see the deep sectarian differences in Afghanistan and tribal areas to benefit from the American forces are moved through the general public in violation of the mujahideen, but we believe that these areas fed Now the spirit of jihad and jealousy difficult to breathe Americans are happy to find groups Oboash and criminals, and to weaken the mujahideen.

The experience of a sectarian militia groups and armed gangs failed in Afghanistan are carried out by the Soviet Union, which was on the brink of defeat and flee during the occupation of Afghanistan; He has excelled in Dostum's militia, known as LE mg Jabbar and militias and other sectarian militias and bandits and battalions of the insurgency, which continues to compel the Afghan people The Inzjr and repugnant them.

Americans should Ikhbroa first on the work and action, and the past history of such militias, then lamadowa forward to a new strategic militias similar.
